

How To Apply for Code Missouri

Who is it for?

Applications are open to any rural school district in Missouri currently interested in developing a computer science program.

Districts will need to offer a course during the school day in 2018-2019. The district is also required to have a teacher able to do professional development over the summer.

Note: You need support from at least 1 district administrator and 1 high school or middle school teacher for the CodeHS program.

How to apply?

1. Visit **CodeMissouri.com**
2. Complete the application form
 - a. Tell us about your current CS program
 - b. Submit your district contact information
3. Sign up for a free teacher account at codehs.com

When is the deadline?

December 6, 2017 at 11:59 PM PST

Thank you for your interest to help improve computer science education opportunities for students across rural Missouri! We look forward to reviewing your district's application.

Contact us at hello@codehs.com if you have any questions!
